For Immediate Release – May 12, 2022

## **New York Lottery Resumes Processing of Mega Millions Tickets at Retailers for May 10, 2022 Drawing**

The New York Lottery has resumed Mega Millions payouts in New York at Lottery retailers. We will provide additional information as to when tickets may be cashed at New York Lottery Customer Service Centers and video lottery facilities. Due to human error relating to the May 10, 2022 Mega Millions draw, the New York Lottery paid a total of \$5,538 to players who presented tickets with the incorrect winning number to retailers before approximately 10 a.m. on May 11. This payment was recouped automatically via a Lottery account for uncashed tickets. There is no impact on aid to education or taxpayer funds.

The winning numbers for the May 10, 2022 drawing are: 15-19-20-61-70 and Mega Ball 9.

The Lottery website [www.ny.lottery.ny.gov](http://www.ny.lottery.ny.gov) will be updated with payout information for the May 10 drawing.
